DEWAN'S OFFICE.

GENERAL DEPT.—(L. B. BRANC

OFFICE NOTE.

SUBJECT. Water Supply to the Town of Kolar (L.F. 102.96)

LAST REFERENCE Letter No. 1665 dated 19th March from the Chief Engineer of Mysore.

(81 60) In his letter No 1019 & the 20th July 1902, the Chief Engineer reported that the distribution of water to the town of Kolar had been completed and requested sanction to the work being handed over to the municipality for the future up-keep.

(81 61) 2. In reply, the Chief Engineer has been asked to furnish details of the annual maintenance charges of the water-works in question and the Chief Engineer in the

other under reference, viz
that the annual
maintenance charge come
up to Rs 500 for which
the details are as below.

	Rs
1 Mechanic and Foreman	15
1 Watchman for channel	6
1 Mountain Cleaner	6

Total Rs 27 a month
or Rs 324 a year
Repairs to channels and fountains 176
Grand Total Rs 500

3 The President of the Municipality in the Kolar Dist, who was asked to report whether the Kolar Town Municipal Board would take up A or maintenance, with effect from the 1st July 1902 has not yet replied; a draft reminder is put up calling for an early reply

(81 62) Docket No 1618 L.B.

n the works proposed to

Submitted for orders
10/4/02 org Draft passed.
JS
18/4.

In his letter No 2368 dated the 25th April 1902 the Chief Engineer solicits early

orders to his reference and states that, pending orders of Government, two watchmen on Rs 7/ each a month will be employed to prevent damage to the supply channel.

5. As the President of the Municipalities in the Kolar District has not yet replied to this Office Docket No 148243 / S.3104-96 of the 7th inst 02, another reminder is put up herewith for approval.

Submitted
3.5.02. Reminder passed.
8/5/1902

6 In his letter No 605 dated the 30th April 1902 the President states that the water works of Kolar Town "will not be complete until the line has been extended to the Hospital." This means, perhaps, that the Board are not willing to take up the work at present and the resolution No 8 of the Board dated the 30th April 1902 is to the follow

effect

"Resolved that the D.P.W
"be asked to let the water
"into the pipes from the
"1st of May 02 and the
"result watched for one
"month before taking
"up the water works."

7 Submitted with a draft docket, forwarding copy of the President's present communication to the Chief Engineer for information, for approval or other orders.

13.5.02.

8 The Chief Engineer, in reply to this Office Docket No 1800 & 27.5.02, L.R 104:96 reports that the water works have been executed in accordance with the project sanctioned by Govt, the extension of the pipes to the Government Hospital referred to by the President has not been provided for in the project but an estimate for Rs 1,260/- has

been received for the work, that the work cannot be undertaken until the settlement of the question as to whether the Municipal Board of Kolar or the Medical Department should bear the extension cost, & that the extension of the line to the Hospital has nothing to do with the taking charge of the completed work, and brings to notice that the President has sent a different reply to the Chief Engineer viz: that the Board wishes to test the pipes first and to take over the work after the close of the Official year.

9 Submitted for orders as to whether the water works may be transferred to the Municipality for maintenance with effect from 1st July 1902.

12 602.

Note. Continued

11 Accordingly the Water Works were transferred to the Kolar Municipal Board for maintenance in Proceedings No 424 dated the 9th July 1902. Dft 104-9

12 Nov. the Chief Engineer in inspecting reports that the Amerhalli Tank, the Kolar Water supply reservoir as well as the Madarahalli tank was much damaged by the recent heavy rains, and that he has ordered the Executive Engineer Kolar Division, to start the work of repairing the tank subject to the submission of an Estimate on the ground that the tank required immediate attention. Pending the settlement of the question of payment of the whole or a moiety of the roughly Estimated Cost, Rs 7,000 by the municipality, the Chief Engineer desires that Government may accord their formal sanction to the action taken by him

13 It is submitted that the original Cost of the Water Project, Rs 58,888 was met from Provincial funds, a sum being treated as a repayable loan to the Kalaa Municipality. One half of the Cost of the present restoration work is likewise chargeable to Municipal funds.

14. The financial Condition of the Kalaa Municipality as per sanctioned revised budget for 1903 04 is given below:-

(1) Opening balance as per actual accounts of the Comptroller Rs 3,871

(2) Estimated receipts for 1903 04 " 9,190

Total Rs 13,061

(3) Estimated Expenditure Do. 10 625

(4) Closing balance Rupees 2,436

Which is more than the prescribed minimum ber Rs 138 only

15. Submitted for orders as to whether the action taken by the Chief Engineer may be approved and the President asked to submit a Copy of the Municipal Board's resolution

in regard to the payment of a moiety of the Cost of the Work from the Municipal Funds of Kolar. with a reappropriation statement providing funds therefor.

Submitted for orders

Dng 5/2/04

10/2/04

An Estimate for Rs 11,238 prepared by the Executive Engineer, Kolar Division for repairing and reconstructing the weir of Amerhalli Tank has been submitted by the President, who solicits sanction therefor with a recommendation that the Municipality may be relieved of this extra burden by the already heavy loan contracted by the Municipality for the Water Supply project. The cost of the project was treated as 1/2 loan & 1/2 grant-in-aid.

Letter No 583 dy 2.2.04 Har C

Submitted for orders.

Dng 12/2/04

13/2. Put up draft at once asking the Chief Engineer whether the cost could be met from the P.W. Budget & if so, from what head.

Kanara 1903/2 5/11.8 20.7

20/2/04

Har D Docket No 3110 dy 20 Feby 1904 issued. Har E Vide No 3291 dy 2.3.04 calling for an early rebl

The Chief Engr in forwarding for No 10741
sanction a project amounting to Rs 11241 for restoring the Tank, States that No 15048
an allotment of Rs 10,000 will be sufficient for the above work for the current year & that this sum can, it is expected, be met from the Supplemental Grant of 2 Lakhs sanctioned in G P No 7(1958 9 & 31 1024, as it is probable that the allotments made for some of the tanks under reconstruction will not be fully worked out during this official year. He adds that the cost of the work is chargeable to "Hire Public Improvements", as it is required for the water supply of the Kolar Town and it is therefore legitimate charge ~~to~~ the Kolar Municipality.

The Kolar Municipality is unable to bear the charge & therefore submitted for orders to whether the ~~Govt~~ Chief Engineer may be asked to sanction the ~~estimate be sanctioned~~ ~~approved. Sanctioned by the Govt~~ ~~may be sanctioned~~ from Provincial funds (Public Works), the cost for the current year being met from the Source pointed out by the Chief Engineer. ~~& returned to hand as requested~~ 11.4.024 & the question as to whether the Municipality should or should not be called upon

to pay a moiety of the cost of repairs as in the case of the original Water Supply Project, being reserved for further consideration.

HB
12/4/04

Subd to the Dewan
through the Honourable Member
15/4/04

I think item 11 must be treated in the same way as the cost of the original works; ie half to be a grant & the other half to be a loan. I am afraid the Board cannot be wholly exempted. The estimate may be sanctioned & orders passed as above. H.

20 The President now submits an Estimate amounting to Rs 5,500-, (prepared by the Executive Engineer Kolar Division) for Extending the pipe lines of Water Supply in the Kolar Town, and states that the Sum of Rs 3,500 available out of the provision of Rs 4,000 made in the current year's municipal budget under VIII P.W. may be spent on the work during the current official year.

No. 874 dt. 15th May 1904

21 The President also states that a Sum of Rs 680 was placed at the disposal of the Public Works Department at the instance of the Chief Commandant of the Mysore State Troops for Extending the pipe line to the Barracks

of Kolar which is not included in the above estimate, and a request that the Public Works Department may be instructed to work out the whole amount (3500 + 680 = 4180) on the work before the end of the current year, as the Superintending Engineer, Eastern circle, is not willing to undertake this urgent work requiring professional skill in the absence of Government order.

22 It is submitted that no information is furnished in regard to the sufficiency or otherwise of the sum of Rs 680 said to have been placed at the disposal of the Public Works Department for the work of extending the pipe line to the Bore Wells, & that no Estimate has been submitted for the same.

Submitted with draft approval
